#### **Redefining Emergency Care**

Mather Hospital is redefining emergency care for our community. Our vision is to build a new Emergency Department (ED) that maximizes patient privacy and caregiver support, increases efficiencies, and incorporates best practices for patient and staff safety.

#### Caring for an aging population

Our population that is over age 65 continues to grow. Our vision is to create be a leader in age-friendly (older care) health care, which focuses on the four M's: Mobility, Medication, Mentation, and What Matters Most to the Patient to increase quality of care. Taking these focuses into consideration we use a tailored approach to treatment based on each patient's individual goals.

In the Emergency Department, this means building a larger ED that incorporates individual private treatment rooms with ample space for caregivers who frequently accompany our older patients. Our new ED will be approximately twice the size of our current facility.

The new ED will also have a split-flow design to accelerate treatment and discharge of patients with lower-acuity conditions and speed up hospital admissions for patients with higher-acuity conditions. Facilities using the split-flow operational model have significantly reduced patient waiting times, length of stay and the number of patients who leave without being examined.

#### Anticipating the unexpected

A separate entrance dedicated to EMS arrivals will allow for patients to be triaged quickly and improve the operational flow and eliminate bottle necks within the current structure of the ED. The new EMS entrance is closest to the critical care treatment areas. This section of the new ED will also have negative pressure isolation rooms which are best suited for patients suspected of having an airborne disease. This area will also have rooms for staff to safely put on and remove personal protective equipment.

The new Emergency Department will include space for dedicated X-ray, ultrasound and CT technology that will enable testing to be done more efficiently, saving critical time in the diagnosis and treatment of our patients.

#### Treating the whole patient

Mather Hospital has a long history of providing exceptional behavioral health services in both outpatient and inpatient environments. Our new ED will have a discrete dedicated area for patients suffering from a mental health crisis which will allow us to provide better care to this population with separate designated areas for adolescents and adults.

Your support helps us deliver the very best care to the people we serve and propel us forward in our goal to be become the healthcare provider of choice for emergency care in our community.

#### About OUR HONOREES

Kenneth Roberts
Community Honoree

Mr. Roberts came to Mather Hospital in 1982 and was named President in 1986. During his four decades at Mather, he led the growth of the community hospital into one of the most respected and highly ranked

hospitals on Long Island.

Under his leadership, there were multiple hospital building and clinical program expansions, including the Emergency Department, Inpatient and Ambulatory Surgery Center, Medical Arts Building, Intensive Care Unit, Adolescent Behavioral Health Unit, a single bedded 35-bed patient care unit and the addition of Cardiac Catheterization and Electrophysiology services.

During his tenure as President, Mather became a Magnet® hospital for quality patient care, nursing excellence and innovations in professional nursing practice; a teaching hospital with a Graduate Medical Education residency program with more than 100 residents and fellows, earned 16 top "A" grades for patient safety from The Leapfrog Group; and became a member of Northwell Health.

#### David Galinkin, DO Theodore Roosevelt Award Winner

Dr. Galinkin is an infectious disease specialist with a practice in East Setauket. He received both his Bachelor of Science degree in Psychology and a Master of Public Health degree in Epidemiology from

the University of Michigan, and his medical degree

from the New York Institute of Technology College of Osteopathic Medicine in Old Westbury. He completed his internship, residency and chief residency in internal medicine at North Shore University Hospital in Manhasset and his Infectious Disease fellowship at Memorial Sloan Kettering Cancer Center.

He serves as a core member of Mather Hospital's Internal Medicine residency program. He is the Co-Chair of the Antibiotic Stewardship Programs at both Mather Hospital and St. Charles Hospital; and he chairs the Infection Prevention Committee at Mather Hospital.

David and his wife, Stephanie, are raising their three children, Eric, Rachel and Michael, in East Setauket. He is a lifelong Mets fan who truly believes that this is their year, as he has nearly every year.

#### David Paul, MD Theodore Roosevelt Award Winner

Dr. Paul is an anesthesiologist who practices with Long Island Anesthesia Physicians, LLP. He received his medical degree from the State University of New York at Buffalo School of

Medicine and Biomedical Sciences. He completed his internship in internal medicine at SUNY at Stony Brook University Hospital and then served as General Medical Officer aboard the USS Kitty Hawk and for the naval hospital in Philadelphia. He completed his residency in anesthesiology at SUNY at Stony Brook University Hospital.

He is the recipient of the Theodore Roosevelt Award from both St. Charles Hospital in 2007 and Mather Hospital in 2014. He has served as both a Trustee and President of the Medical Staff at St. Charles Hospital.

## Whisper Vineyards conveniently located in the heart of Smithtown has been said to be a hidden gem.

The Borella family has been farming the land since the early 1950s and in 2004 they planted the grape vines. The vines are grown with deep respect for the land and are reflective of the rich haven soil and unique micro-climate of the hamlet of St. James. The grapes are hand harvested and carefully selected to bring only the highest quality fruit to the wine press.

Today we are happy to share our wine with you in support of Mather Hospitals One Enchanted Evening for the benefit of the emergency department.
