Delivering cutting-edge modern healthcare

Renovations to our front lobby will include:

- 1. Exquisite interior design upgrades and expanded spacious visitor seating including high-top workstations for laptop and tablet usage
- 2. Security and access enhancements and a digital information screen
- 3. A new Gift Shop
- 4. Dedicated bathroom facilities

Creating a new Emergency Department will:

- 1. Increase square footage, to improve the flow of patients, staff, and visitors
- 2. Increase privacy and create a quiet environment to improve patient/visitor experience
- 3. Allow Mather Hospital to better care for our aging patient population that have complex medical needs

Enhancing Surgical Suites will allow us to:

- 1. Prepare for more complex surgeries by building two 1,200-sq.-ft. ORs
- supports Mather's increase in complex surgeries that use CT scanners and da Vinci surgical robots
- 3. Perform more advanced neurovascular, gynecological, bariatric, and urological procedures

Expanding Cardiac Care:

- 1. Our new Cardiac Cath Lab opened in May 2021 and the Electrophysiology Lab opened in February 2022
- 2. House the technology that 2. These specialized stateof-the-art units diagnose and treat cardiovascular diseases— in a minimally invasive manner
 - 3. Our door-to-balloon time is currently under 60 minutes, which is below the national goal

Transforming behavioral and mental health by:

- 1. Establishing a single facility to house our outpatient behavioral and mental health programs
- 2. Providing a behavioral health rapid access center to reduce demand on the **Emergency Department**
- 3. Expanding our Adolescent Partial Hospitalization Program and medication assisted treatment program
